Draft Policy SMD1 (Design Quality) part 2) requires (all) developments to demonstrate that its listed criteria have been addressed and at part 3) requires (all) major developments to contribute to the greening of Sandwell by delivering against its listed criteria.

However, the draft Policy's prescriptive approach lacks flexibility and is likely to impact upon deliverability of development – particularly allocated brownfield sites which are subject to other policy requirements and masterplan aspirations which, if inflexibly applied, are stifling development from them. The Policy also needs to recognise that development must be viable in order to deliver its requirements.

As such, the Policy must be amended to provide sufficient flexibility to ensure that development is viable, and ultimately deliverable, whilst delivering its requirements where possible, or where viable.

This more flexible approach is provided in draft Policy SH04 and draft Policy SH05 for example, which make it clear, and are explicit, that affordable housing provision and wheelchair accessibility standards (respectively) are required but only 'subject to financial viability'.
